- Up to 400 lb. drawer capacity
- Protect valuable tools
- Centralized control of equipment
- No assembly
- Custom units

Each drawer is ribbed and slotted (3/4" centers) over the length and width of the drawer. Convenient numbered spacings simplify installation of partitions, and label holders permit quick identification of drawer contents. When fully extended, 100% of the drawer clears frame to allow unobstructed viewing of entire drawer contents. The interchangeability of drawer partitions and dividers permits changing drawer interiors easily - as you need to, and in unlimited patterns.

**10-gauge side channels form a solid rail for mounting drawers.**

Two positive-gravity stops riveted to each drawer carriage.

Adjustable channels permit flexibility in drawer arrangements and heights.

Independent, full extension carriage for each drawer; when fully extended, 100% of drawer clears frame.

"Z" shaped tracks on drawer edges are welded and wrapped under drawer bottom for superior durability.

Drawer suspensions glide on 6 ball bearings and 4 steel idler rollers to assure smooth, easy operation.
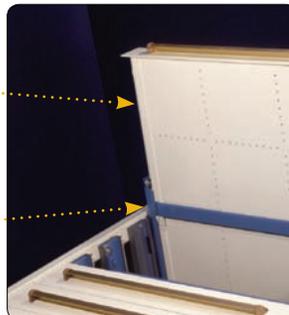

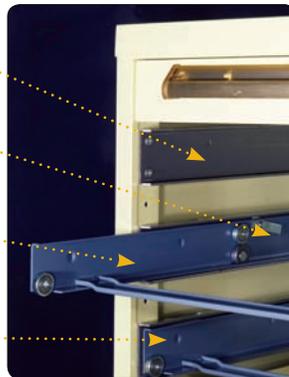

An integral fork lift base consisting of two 1¾" x 6" lifting channels arc-welded to the frame itself, permits inserting truck forks into wide channels for safe, easy transport of cabinets - even when fully loaded!

Anchor bolt
These bolting options allow you to anchor a modular drawer cabinet to either concrete or wood floors.
