

DEPLOYABLE. SCALABLE. SUSTAINABLE.

In addition to new weapon systems, armorers are now challenged by an ever increasing quantity and array of items which must be securely stored and organized in their limited space Armories.

THREE PARTS

ONE RACK

INFINITE CONFIGURATIONS

COMPONENTS

24 - Upper Saddles

Injection molded ABS saddle supports barrel, rail or magwell without scratching metal surfaces. Bungee is used for mobile applications.

12 - Large Bins

Bins may be positioned anywhere on louvered back panel to store hand guns, optics and small gear

48 - Lower Saddles

Saddle cups adjust on slotted shelf to accommodate stock of virtually any infantry weapon

Two part patented upper and lower saddle system developed under contract with US Army Special Forces. This unique platform adapts to properly store all and any weapons from M4s and M500s to MK19s and mortars by simply adjusting the saddles. Modular platform allows custom storage with unlimited configurations according to your wants and needs while assuring straight-line access and organizational awareness. Internal components including shelves, saddles, bins and trays adjust on the fly.

Rack Specs:

- 36" w x 15" d x 72" & 84" h
- 14 gauge all welded construction
- bi-fold, vented doors
- louvered back panel

Applications:

- Secure, AR compliant handgun, man, and crew served weapon and gear storage

Accessories To Customize Your Needs

Bungee tie down
Attaches to top of upper saddle to secure upper barrel and/or firearm strap

Pistol Peg
Eleven capacity pistol peg keeper adjusts on louvered back panel and prevents

Magnetic hook
Adjustable hook with 35 lb. holding capacity

Adjustable Shelf
Adjustable with 800 lb. holding capacity

Maximum Density - Mobile Aisle System
