ASSEMBLING THE EQUIPTO BAR RACKS

3 ft. Wide Bar Rack

#1060  #1062  #1064  #1066  #1068
#1061  #1063  #1065  #1067

--- ASSEMBLY PRECAUTION ---

An unsafe condition will exist unless the bar racks are properly assembled, the tie rods installed and all bolts tightened to provide stability.

--- Instructions ---

1. **Single Face Rack End Assembly**
   - Position bottom of one panel directly above the V-notch in the angle bracket. Secure with a bolt. Repeat with the top panel. Secure with a bolt.

2. **ASSEMBLING SEPARATION SHELVES**
   - Place the top of the next shelf below the top panel. Secure with a bolt. Repeat with remaining shelves.

3. **Bar Rack with Tie Rods Assembly**
   - Secure the tie rods on the outside of the top panel. Secure with a bolt. Repeat with remaining tie rods.

--- Important Notes ---

- Make sure all tie rods are secured tightly on the assembly line.
- Assemble the racks only as required.
- Do not exceed the capacity indicated by the rating label on the unit.
- All racks must be properly supported to maintain stability.
- Use only the bolts provided with the unit. Do not substitute.
